Dear Dr. Loving:

As we celebrate the New Year, the Donated Dental Services (DDS) and the patients served by the program extend genuine thanks to you for your constant spirit of giving as a volunteer in the DDS program.

Gratitude from the patients whose lives you touch is relayed to us again and again. We are honored to pass the gratitude on:

“I would like to thank you for the donated dental work you performed on my teeth. I desperately needed help and without you they would have gone from bad to worse. It’s caring people like you who give the rest of us faith in the human race. I will always be grateful for this gesture.”

Thanks to volunteers like you, DDS patients in King County have received \$1,608,963 in donated dental treatment since the program began in 2000.

The services you donate are absolutely essential; the health and dignity you provide reach beyond what a letter can translate-- thank you.

We are truly grateful for and look forward to your continued participation.

Sincerely,

Debra Blake
DDS Coordinator
